and pass to Reg.
to file.

At 3.30 p.m. on the 17-11-36, Mrs. George, French citizen, wife of Mr. Henri George — Secretary to the French Consular Court at Shanghai, residing with her husband in apartment 603 Embankment Building, came to this Station accompanied by Commandant Le Froc, residing at No. 7 Rue Chapeau.

Mrs. George reported that she suspected her house-boy of having administered some poison — or noxious substance into their food, thereby causing her husband to become sick.

C.D.S. 122 and the undersigned accompanied Mrs. George and Commandant Le Froc to Apartment 603 Embankment Building, where the house-boy — The Siam Ping (于小兵) was interviewed and later brought to Hongkow Station for enquiries.

Mrs. George — who does not speak English very clearly — made a very rambling statement in the presence of her husband and Commandant Le Froc which the undersigned had great difficulty in understanding owing to the disjointed and excitable manner in which the story was told, and the language difficulty.

The informant stated that, on the evening of the 16-11-36, her husband suddenly became very sick with abdominal pains shortly after having partaken of food cooked by herself and served at table by the above named house-boy.

SB Reg.
Passed to you.
